The Contractor, not the Government, is responsible for management and quality control to meet the terms of the contract. The role of the Government is to monitor quality to ensure that contract standards are achieved.

DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

PERFORMANCE WORK STATEMENT

The Embassy of the United States of America issues this solicitation for the purpose of obtaining the services of a contractor to conduct an evaluation of the impact of small business development centers (SBDCs) managed by SERCOTEC in Chile on small- and medium-sized enterprise (SME) sales, job creation, and overall performance. This will require the Contractor to design and implement data collection regimes comparing a sample of SME clients from Chile's recently-launched business development centers (CDNs), which are based on the U.S. model of small business development centers SBDCs, against a control group of similar SMEs drawn from existing data sources. The winning contractor must also build a sample of firms that receive services in each of the 27 CDNs included in this study, with the objective of collecting detailed information that will complement existing data, in such a way as to measure the performance of each.

The winning contractor will be expected to work closely with both the Embassy and SERCOTEC as technical counterparts during the distinct phases of this evaluation.

Depending on future funding availability, the selected contractor may also be given an opportunity to compete in a future request for proposals to conduct follow-on quantitative and qualitative work.

The Government estimate for this project is between the range of USD \$100,000 – 130,000.

BACKGROUND

Beginning in 2014, SERCOTEC developed and implemented a new model of intervention that was the product of a change in emphasis for its client support.

In this way, the network of Centers for Business Development (CDNs) was launched. This program's objective is to formulate and implement, in concert with the business owner, business development plans oriented towards reducing the gaps for physical capital and business skills detected in the diagnostic process. The CDN Program aims to improve the competitiveness of firms attended and help them carry out a plan of work that includes: orientation; diagnostic of the firm; high-value technical consulting and support; training in management skills and technical issues; and consulting to access financial products and services, as identified financing needs.

The Centers have an instilled culture of performance measurement, which will be evaluated according to the economic impact generated in the assisted companies, considering such indicators as increased sales, creation or retention of jobs, financing obtained, return on public investment for tax collection, etc.

SERCOTEC will implement a total of 50 centers throughout the country. The launch of these centers will be done in stages; beginning in 2015 with the implementation of the first 35 centers, and during 2016 is expected to select the remaining centers in order to have 50 centers in operation and networking in 2017.

SCOPE OF CONTRACT

The performance period of this contract is from the start date in the Notice to Proceed and continuing for 12 months, with 2 one-year options to renew.

The Contractor will conduct an impact evaluation, to be initiated no later than October 1, 2016, with the objective of providing SERCOTEC and the Embassy with evidence it can use to evaluate and improve the SBDC program in Chile and inform the decision-making of other governments regarding their adoption of the SBDC model and effective adaptation to the local context. This evaluation shall focus on the following question:

- What change in revenues and employment in firms that are clients of SBDCs can be attributed to services provided by those SBDCs?

Those proposals that also seek to address the following additional questions will be evaluated positively:

- What were the causal pathways of change for firms receiving SBDC services? Which services or aspects of the policy were most beneficial, and why?
- What change in wages or other employee benefits are attributable to a firm's association with an SBDC? Are there other effects, positive or negative, on employees?
- What impact, if any, does association with an SBDC have on a firm's likelihood of moving from the informal to the formal economy (business registration, payment of taxes, conclusion of formal work contracts, etc.)?
- Is there any change in a client firm's access to credit or other capital that is attributable to association with an SBDC?
- Is there any change in a client firm's tax payments that is attributable to association with an SBDC?

All findings must be disaggregated by gender and location, to include if the effects are not statistically different.

ESTIMATES AND REIMBURSEMENT

The Embassy intends to award a contract at a firm fixed price in local currency. Offerors should provide an assessment of realistic and reasonable costs for the work necessary to achieve the objectives described herein.

QUALIFICATIONS

The offeror shall propose a team size and composition that will enable them to fully answer the questions of the evaluation. This should include an explanation of how they intended to or already do possess any skill set required to answer the questions. Members' experience must be accredited through certificates, letters of recommendation or other documents, both for the consulting firm and each member of the team.

At least one member of the team should possess general professional proficiency in English.

The technical proposal should attach the Curriculum Vitae of each of the professionals from the team and establish the responsibilities of each of them over each of the products requested in the section above.

METHODOLOGICAL FRAMEWORK

The Contractor will be expected to undertake the following:

- Contractor will measure and analyze the performance of firms that receive services from the 27 CDNs in Chile that are listed in Table 2. Performance will be measured along a number of outcomes—to include, at a minimum, sales and employment—over a two-year period starting with the date on which the firm first visited the CDN. Results should be disaggregated by center, service provided, gender, and other characteristics of interest. All required data for firms receiving services at CDNs will be supplied by SERCOTEC; however, because this information is not currently structured, the contractor will be required to tabulate and prepare it for appropriate analysis, as well as propose a viable, cost-effective strategy to deal with the problem of attrition (i.e., firms that stop supplying data to SERCOTEC, including those that abandon CDN services prior to completing them).
- For the impact evaluation, the Contractor will compare the performance of firms that receive services from CDNs located in major urban areas against a control group of firms that are as similar as possible to the firms in the “treatment” group, except in their exposure to services from the CDNs. Results should be disaggregated by center, service provided, gender, and other characteristics of interest. Treatment group data will be supplied by SERCOTEC. The Ministry of Economy will offer the Contractor, in accordance with its institutional capabilities, its continuous support to obtain information that can be of utility in the

determination and analysis of a control group. As with the performance measurement work above, the Contractor should propose a viable and cost-effective strategy to deal with the problem of attrition in the treatment group (i.e., firms that stop supplying data to SERCOTEC, including those that abandon CDN services prior to completing them).

- The Contractor must, in addition, conduct a measurement of intermediate results in each of the 27 CDNs that will permit the evaluation of how each center's delivery of services has affected the gaps, in terms of management and financing, that were initially detected. To achieve this objective, the Contractor must apply a survey of a sample of client firms from each of the 27 CDNs that will be included in the evaluation. This sample should not, under any circumstances, exceed 25% of the total population of firms that receive services from the 27 CDNs during the period of the study.
- Additional Services: (firm-fixed-price): For the purposes of the impact evaluation, proposals should include a viable and cost-effective strategy to construct a control group without the necessity of assistance from the Ministry of Economy. Proposals should detail, as an annex document to the Contractor's proposal, the additional cost that this would entail. The Contractor shall provide these services in addition to the scheduled services specified in this contract. The COR shall order these services as a needed basis. These costs should not be included in the chart from page 6 – they must be sent on a separate quote.

AVAILABLE DATA

The following variables will be either given by SERCOTEC to the Contractor, or collected in the field and processed by the Contractor, as appropriate, for all of the firms that receive services at a CDN in Chile:

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (k) Certificates regarding exemptions from the application of the Service Contract Labor Standards (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

☐ (1) Maintenance, calibration, or repair of certain equipment as described in FAR [22.1003-4\(c\)\(1\)](#). The offeror ☐ does ☐ does not certify that—
